in-house manufacturing since 1975

Fundada en 1975, en Girona (Barcelona, España) Pordamsa diseña y fabrica porcelana de tendencia. Es reconocida por su alto nivel de innovación en sus diseños para un mercado en constante evolución.

Fondée en 1975, à Girona (Barcelone, Espagne) Pordamsa est une société pionnière dans la fabrication de porcelaine, reconnue pour le haut niveau de ses conceptions novatrices sur un marché global en incessante évolution.

Founded in 1975, in Girona (Barcelona, Spain) Pordamsa is a trend-setting porcelain manufacturer known for its high level of innovative designs to an ever changing global marketplace.

HANDMADE PROCESS

In-house manual manufacturing gives us the possibility to ensure maximum care to the smallest details.

HIGH TEMPERATURE

Pordamsa porcelain is fired up to 1400°C / 2552°F. The result is a durable product, more resistant to chip, scratch and break than low-fire ceramics.

FUNCTIONALITY

For Pordamsa, design is paired with comfort and practicality. All the items are aesthetically appealing yet easy to hand and store to make your everyday worklife easier.

HANDLY POLISHED

Once dried, the porcelain is carefully polished by hand to get the best result after firing.

FINISHING

Each piece is coated with gloss or matte enamel to get a non-porous and a long-lasting surface. The mix of gloss and matte finishing brings an attractive light contrast and is one of the most appreciated characteristic for our clients.

All the items have a working range of -20°C / -4°F (300°C / 575°F), oven, microwave, dishwasher and freezer safe. We recommend avoiding extreme temperature changes.
